PROFESSIONAL PROFILE

I am a specialist anaesthesia who is a dedicated medical professional specializing in the field of anaesthesia, intensive care and pain management. I am able to demonstrate strong clinical expertise and I have proven an ability to deal with different intensive care-related complex cases as well as other interventional procedures. I finished my residency program in anaesthesia, intensive care and pain management at Zagazig Hospital and Zagazig University. The hospital is a highly regarded medical and academic training center in Zagazig ,Egypt, that provides world-class treatment for patients. The division of anaesthesia, intensive care and pain management is well known academic unit and has been considered one of the best interventional units in Egypt. I have previously worked as anaesthesia specialist and the team leader of the operating room and emergency department with strong experience in supervising anesthesia staff ensuring patient safety and delivering high quality perioperative care.seeking to contribute to high standard medical environment focused on safety and clinical excellence at Alkhoms medical center in Alkhoms,Libya.

And currently applying for a assistant lecturer position in the collage of medicine at Zintan University starting at july 2025.
