## VOLUNTEER WORK

Member of the Libyan National Conference for Obstetrics and Gynaecology.

Tripoli - Libya

2023- 2024

## ACHIEVEMENTS

### Heart Basic Reference & First Aids

Training & Cooperation Administration - Libya Medical Board

17 / 04 / 2013

- Gained a comprehensive understanding of cardiovascular health, including anatomy, physiology, and common heart conditions.
- Developed practical skills in performing basic life support (BLS) and first aid techniques, to respond effectively in emergency situations.
- Better equipped to educate others in their communities about heart health and emergency response, promoting overall public health.

### Cooperative & Trainee Physician

Gynaecology & Obstetrics- Tripoli - Libya Medical Centre

01 / 06 / 2015

- Learned the importance of teamwork and communication in a healthcare setting, enhancing our ability to work effectively with colleagues.
- Gained hands-on experience in various medical procedures and patient management, improving our clinical skills and decision-making abilities.
- Built professional relationships with colleagues and mentors, facilitating future collaboration and knowledge sharing.

### Basic Abdominal Ultrasound

Al Methalia Al Hadetha for Training and Development - Tripoli - Libya 15 / 03 / 2014

- Acquired the skills necessary to perform basic abdominal ultrasound examinations, including identifying key anatomical structures and common pathologies.
- Enhanced ability to interpret ultrasound images that will lead to improved diagnostic capabilities, aiding in timely and accurate patient care.
- Emphasized the importance of patient comfort and safety during ultrasound procedures, fostering a patient-centered approach to care.
- Ability to incorporate ultrasound into our clinical practice, enhancing our diagnostic toolkit and improving patient outcomes.

### Advanced Emergency OBS Gyny

Medical Manpower Development Centre - Ministry of Health - Tripoli - Libya

2018

- Developed advanced skills in managing obstetric and gynaecological emergencies, including complications during pregnancy and childbirth.
- Enhanced participants' ability to make quick, informed decisions in high-pressure situations, improving patient safety and outcomes.
- Enhanced knowledge and skills that will lead to better management of obstetric and gynaecological emergencies, ultimately improving maternal and health outcomes.
